## Universal Distribution Matrix

UDM-0808-SIG	FG1402-01	8x8 Signature Series Multi Format Distribution Hub Supports 8 high-resolution input ports and 8 UDM output ports, and supports multiple methods of delivering sync information between the UDM hub and the display device, including common mode. Ideal for residential applications as a companion to the NI-3101 Signature Series NetLinx Controller or the Tango Audio Controller as all three components share the same elegant finish and mirror matched showroom styling.	€7.900,00
UDM-0404	FG-UDM-0404	Supports four high-resolution input ports and four output ports. Delivers media over easily-installed, dedicated Cat5/5e/6, which decouples distribution of the media from the corporate backbone. Users can quickly switch and transmit any video source to any display device, power on/off display devices, and permission user control to select and play video sources and media servers on demand. Can distribute any combination of the following: four RGBHV sources, four Component video sources, four S-Video sources or 12 Composite video sources.  NOTE: No AV interface cables supplied.	€3.230,00
UDM-ABB-8-SIG	FG1402-60	Endeleo Audio Breakout Box Delivers analog and digital audio buffered and cascaded from the output side of an Endeleo UDM-0808-SIG. Ideal for residential applications and as a mirror-matched companion to the UDM-0808-SIG and NI-3101-SIG to separate the audio from the 8 audio / video inputs received by the Endeleo UDM-0808-SIG and deliver them in either analog or digital form to the inputs of a distributed audio system.	€1.035,00
